

Adaptive Recreation Policies and Procedures

Mission Statement

The City of Surprise is committed to offering quality recreation activities in a safe, inclusive and accessible environment which increases the quality of life for our residents.

What is Adaptive Recreation? Recreation programs for individuals with disabilities, in which participants are provided an opportunity to socialize, develop and enhance their skills, build confidence and maximize potential.

Participation Policy

The Parks & Recreation Department is committed to providing a safe and fun recreation environment for everyone. It is imperative that all guidelines be followed when participating in any of our adaptive programs.

Social Behavior – Participants will refrain from inappropriate social behavior which may negatively impact the program and/or event and jeopardize the safety of others. Repeated incidents can and may lead to a participant being prohibited from participating in future programs.

Personal Care –It is the responsibility of the parent/guardian/caregiver of the participants to provide assistance with feeding, toileting etc. or to make arrangements for such care prior to the start of an event or program.

Updated Emergency Contacts – It is the responsibility of the parent/guardian/caregiver to ensure that current emergency contact information is on file with the Adaptive Recreation Coordinator. This is critical in the event of a medical or behavioral emergency.
